La BDD

The image shows a screenshot of a database management tool's schema viewer. At the top, there is a header bar with a blue icon and the text 'voyage'. Below this, a list of fields is displayed, each preceded by a yellow lightbulb icon. The fields are: ID INT, titre VARCHAR(255), resum VARCHAR(255), photo1 VARCHAR(255), section VARCHAR(255), description TEXT, adresse VARCHAR(255), and visible INT. Below the fields, there is a section titled 'Indexes' with a dropdown arrow. Under 'Indexes', the word 'PRIMARY' is listed.
